Plex Remote Access Diagnostic Kit

Free preview | three routes | one page

WHAT IS INSIDE

A **Mobile data cannot reach the server**
The phone says it cannot connect, or Remote Access is red/unavailable.

B **It connects only indirectly or through Relay**
Playback works, but Plex Dashboard says Indirect or Relay and quality is poor.

C **It connects but keeps buffering**
The library opens away from home, but the video stalls, transcodes badly, or drops.

Before route A/B/C: confirm Plex Pass or Remote Watch Pass entitlement.

Full kit: multi-page PDF, fillable test worksheet, two-page retest/recovery checklist.

The full kit is a download. Live one-to-one help is separate, through Request a quote.
